

Workers. Managers.
Agency. **Connected.**

The effortless easy temp
labour management platform

How it works

KPI Connected is a cloud-based platform that makes recruitment & management of temporary, shift-based labour, effortlessly easy.

It's a hub where you, your agency and your workers interact.

It simplifies every part of the temp management process:

- Instant, trackable communication
- Visibility through real-time data
- In depth financial analysis
- Makes compliance straightforward

The effortlessly easy temp labour management platform used by:
